Continued growth for Public Trustee

Public Trustee, Mark Bodycoat today announced that the office of the Public Trustee continued to grow as a service delivery organisation throughout 2006-07.

Staff numbers increased to 166 (up from 141 in June 2006). This reflects increases in both living client numbers and the number of deceased estates being administered.

“It is not only a simple numeric increase in clients and estates that has driven this increase in staff numbers but also the overall complexity in estates being managed by Public Trustee.” Mr Bodycoat said today.
